1 REST TIME POLICY

The United Nations Convention on the Rights of the Child states that all children and young people are guaranteed the right “to rest and leisure, to engage in play and recreational activities appropriate to the age of the child and to participate freely in cultural life and the arts”. (My Time, Our Place: Framework for School Age Care in Australia, (V2.0) p. 5). Telopea Park School Out of School Hours Care (TPSOSHC) Service will cater for the needs of individual children who may require a rest, or even a sleep, after a busy school day.

2 LAWS AND REGULATIONS

2.1 NATIONAL QUALITY STANDARD (NQS)

QUALITY AREA 2: CHILDREN’S HEALTH AND SAFETY		
2.1	Health	Each child’s health and physical activity is supported and promoted
2.1.1	Wellbeing and comfort	Each child’s wellbeing and comfort is provided for, including appropriate opportunities to meet each child’s needs for sleep, rest and relaxation.
2.2	Safety	Each child is protected.
2.2.1	Supervision	At all times, reasonable precautions and adequate supervision ensure children are protected from harm and hazard.
QUALITY AREA 3: PHYSICAL ENVIRONMENT		
3.1	Design	The design of the facilities is appropriate for the operation of a service.
3.1.2	Upkeep	Premises, furniture and equipment are safe, clean and well maintained.

EDUCATION AND CARE SERVICES NATIONAL LAW AND REGULATIONS	
Section 165	Offence to inadequately supervise children
Section 167	Offence relating to protection of children from harm and hazard
82	Tobacco, drug and alcohol-free environment
84A	Sleep and Rest
84B	Sleep and rest policies and procedures
84C	Risk assessment for purposes of sleep and rest policies and procedures
103	Premises, furniture and equipment to be safe, clean and in good repair
105	Furniture, materials and equipment

110	Ventilation and natural light
115	Premises designed to facilitate supervision
168	Education and care service must have policies and procedures
170	Policies and procedures to be followed
171	Policies and procedures to be available
172	Notification of change to policies or procedures
176	Time to notify certain information to Regulatory Authority

3 PURPOSE

The *Education and Care Services National Regulations* requires approved providers and nominated supervisors to ensure their services have policies and procedures in place for children's sleep and rest having regard to the ages, developmental stages and individual needs of the children. TPSOSHC will ensure that all children have appropriate opportunities to rest and relax in accordance with their individual needs whilst attending the service. TPSOSHC has a duty of care, to ensure we respect and cater for each child's specific needs and provide an environment that takes every reasonable precaution from harm and hazard.

4 SCOPE

This policy applies to the approved provider, nominated supervisor, educators, staff, children, students, volunteers and visitors of the Service.

5 IMPLEMENTATION

'Children have different sleep, rest and relaxation needs. Children of the same age can have different sleep patterns that nominated supervisors and educators need to consider within TPSOSHC. As per Standard 2.1 (Element 2.1.1) of the National Quality Standard, each child's comfort must be provided for and there must be appropriate opportunities to meet each child's sleep, rest and relaxation needs.'
(ACECQA)

Our Service defines 'rest' as a period of inactivity, solitude, calmness or tranquillity, and can include a child being in a state of sleep. Considering the busy and energetic nature of a child's day, we feel that it is

important for children to participate in a quiet/rest period after school if required, to rest, relax and recharge their body.

TPSOSHC will consult with families about their child's individual needs, ensuring they are aware of the different values and parenting beliefs, cultural or opinions associated with sleep/rest requirements.

SLEEP AND REST SPECIFIC RISK ASSESSMENT

The approved provider, in conjunction with educators of the OSHC Service, will conduct a comprehensive risk assessment in order to identify any potential risk/s or hazards and ensure the safety of all children during sleep and rest.

The risk assessment will be reviewed at least annually or after being aware of an incident or circumstance where the health, safety or wellbeing of children may be compromised during sleep or rest. All risk assessments will be regularly assessed and evaluated as to facilitate continuous improvement in our service. If a risk concerning a child's safety during sleep and rest is identified during the risk assessment, the approved provider must update the *Rest Time Policy* and procedure as soon as possible. The risk assessment must be stored safely and securely and kept for a period of 3 years.

Our risk assessment will consider and include the following information:

- the number, age, developmental stages and individual needs of children
- the sleep and rest needs of individual children being educated and cared for (including specific health care needs, cultural preferences, sleep and rest needs of individual children and requests from families about a child's sleep and rest)
- the suitability of staffing arrangements to adequately supervise and monitor children during sleep and rest periods
- the level of knowledge and training of staff supervising children during sleep and rest periods
- the location of sleep and rest areas, including the arrangement of beds within the sleep and rest areas
- the safety and suitability of beds and bedding equipment, having regard to the ages and developmental stages of the children
- any potential hazards
 - in sleep and rest areas
 - on a child during sleep and rest periods (such as jewellery)
- the physical safety and suitability of sleep and rest environments (including temperature, lighting and ventilation)

(ACECQA 2023)

THE APPROVED PROVIDER/NOMINATED SUPERVISOR WILL:

- ensure that obligations under the *Education and Care Services National Law and National Regulations* are met
- ensure educators, staff, students, visitors and volunteers have knowledge of and adhere to this policy and associated procedure
- ensure families are aware of this *Rest Time Policy*
- conduct a sleep and rest specific risk assessment at least annually to ensure all protentional hazards are controlled in sleep or rest areas in line with Red Nose and ACECQA guidelines
- take reasonable steps to ensure that children's needs are being met by giving them the opportunity to rest, having regard to the ages, developmental stages and individual needs of each child
- ensure the area for rest is well ventilated and has natural lighting
- ensure educators provide safe and adequate supervision when children rest their bodies
- provide information to educators and staff about evidence based safe sleep practices as recommended by Red Nose (although school aged children are not considered high risk, these practices should be known by all educators)
- ensure children who are sleeping or resting are closely monitored and that all sleeping or resting children are within hearing range and observed. This involves physically checking/inspecting sleeping children at regular intervals of 10 minutes and ensuring that they are always within sight and hearing distance of sleeping and resting children so they can easily monitor a child's breathing and the colour of their skin. It is recommended that educators will not perform administrative duties that would take their attention away from sleeping/resting children (Note: CCTV, audio monitors or heart monitors do not replace the need for physical checking/inspecting sleeping children)
- ensure educators, staff and volunteers follow the policy and procedures
- ensure sleep and rest environments will be safe and free from all hazards including cigarette and tobacco smoke.

EDUCATORS WILL:

- have a thorough understanding of the OSHC Service's policy and practices and embed practices to support safe sleep/rest into everyday practice
- consult with families about children's rest needs and include children in decision making (children's agency)
- ensure children are provided with a high level of safety when (sleeping and) resting and every reasonable precaution is taken to protect them from harm and hazard

- maintain adequate supervision and ratios throughout any rest period
- assess each child's circumstances and current health to determine whether higher supervision levels and checks may be required
- communicate with families about their child's rest time and observed requirements
- encourage children to dress appropriately for the room temperature when resting. Lighter clothing is preferable, with children encouraged to remove shoes, jumpers, jackets, hats and bulky clothing.
- monitor the room temperature to ensure maximum comfort for the children
- provide an environment that is free from cigarette or tobacco smoke
- opportunities are presented for rest and relaxation, as well as sleep if required
- consideration is made for each child's sleep/rest needs- including the age of the child, medical conditions, individual needs
- a quiet area is provided for children to sleep/rest, away from the main group of children
- the designated rest area may include a cushion, bean bag or comfortable seat in a quiet section of the care environment
- sleeping and resting children are monitored at regular intervals
- faces of sleeping children are uncovered when they are sleeping
- an educator is always within sight and hearing of sleeping and resting children so they can be monitored (breathing patterns, colour of skin)
- light bedding is provided for children as required

FAMILIES WILL:

- be informed during orientation of our *Rest Time Policy* and procedure
- be requested to provide educators with updates on their child's individual need for rest (or sleep) routines if applicable.

CONTINUOUS IMPROVEMENT/REFLECTION

Our *Rest Time Policy* will be reviewed on an annual basis in consultation with children, families, staff, educators and management.

Key terms

Term	Meaning
ACECQA- Australian Children's Education and Care Quality Authority	The independent national authority that works with all regulatory authorities to administer the National Quality Framework, including the provision of guidance, resources and services to support the sector to improve outcomes for children.

Adequate supervision	<p>Adequate supervision means:</p> <ul style="list-style-type: none"> that an educator can respond immediately, particularly when a child is distressed or in a hazardous situation; knowing where children are at all times and monitoring their activities actively and diligently
Continuous supervision	Ensure an educator is in sight and hearing of a sleeping child at all times- representing best practice (Red Nose)
Rest	A period of inactivity solitude, calmness or tranquility and can include a child being in a state of sleep.
Relaxation	Relaxation or other activity for bringing about a feeling of calm in your body and mind.
<u>Red Nose</u>	Red Nose is Australia's leading authority on safe sleep and safe pregnancy advice.
